

ALDES CENTRALISED  
VACUUM CLEANING

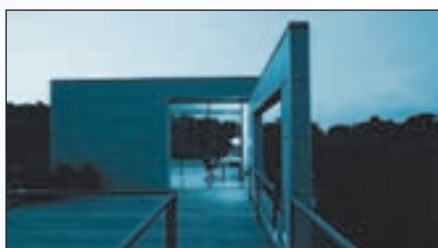

**Perfect for you.**

Aldes centralised vacuum cleaning,  
**a modern, rapid and efficient appliance,**  
for **indoor air hygiene and quality.**

**Perfect for your home.**

Aldes centralised vacuum cleaning,  
**a long-lasting appliance to show**  
**your property at its best.**

**Technology that adapts.**

For new and renovated homes, Aldes  
centralised vacuum cleaning uses the **latest**  
**technologies** developed by the specialist in  
indoor air quality.

# VACUUM PERFECTION.

# TECHNOLOGY FOR YOU.

## Wireless control:

The central unit is turned on and off using the latest **Aldes Wireless technology**. Connect the hose to the wall inlet, shake the hose and vacuum.

**Connect, shake, vacuum...**

## Aesthetically designed

### inlets:

The wall vacuum inlets, developed with the greatest names in electrical appliances, are **attractive, modern and practical**.

Perfectly integrated into your interior decoration, they finally can be used at a comfortable standing height.

## Sturdiness:

A new central unit made of **polypropylene** for **sturdiness in line with the vacuuming power it delivers**.

Motorisation using **By Pass double turbine technology**, guaranteeing an extended **lifespan**.

## Handle:

From the research conducted by **Aldes** comes an **ergonomic and efficient design**.

Nothing has been left to chance in order to make **daily use easier**: angles, grip, material, airflow... **all the while guaranteeing efficient vacuuming**.

## Now you see it.

### 1-Handle Assembly + brush + wand

Ergonomic and efficient, it tracks down dust to the farthest corner.

### 2-The hose

The connection joining the wand and the central vacuum cleaning unit, its 7.5m length has been designed to make movement easier without increasing the number of wall vacuum inlets in the house.

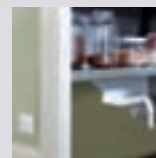

### 3-The inlet

The hose connects directly to the wall inlets, which are the only parts of the vacuum cleaning system that you can see.

## Now you don't.

### 1-The ducts

Perfectly integrated in the building, in both new and renovated homes, they link the central vacuum unit and the wall inlets.

### 2-The central vacuum unit

The heart of the system, for both vacuuming and dust recovery. It is installed in the garage or in a utility room.

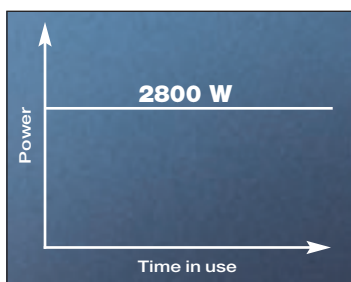

#### Bag:

Placed in the tank of the central vacuum unit, it is made of **polyester**, trapping 99.9% of the dust.

With a capacity of **30 litres**, it can be used for 6 months without changing, depending on the conditions of use.

#### Power:

With motor power of 1400 to 2800 W depending on the model, the range includes **the most powerful vacuum cleaners on the market**.

For you, this power means **efficiency and speed**. Having **big bags means clogging** is avoided, so the **suction power stays constant**.

#### User interface:

The central vacuum units are equipped with a **filling indicator** and **maintenance indicator LED**, to inform the user of its optimal operating.

#### Accessories:

Aldes offers **accessories that are 100% useful**: a special car carpet and seat brush, an upholstery tool to get in between seats, a **storage bag** for accessories and hose 100% practical.

# C.POWER

## C.Power

- Self-diagnostic installation.
- Constant power
- Wireless control on the handle.
- 2 in 1 ergonomic handle.
- Power control in the handle and on the central unit.
- Car accessories.
- Low noise level.

Variable, from 1400 W to 2800 W

From 425 W to 2 x 425 W  
From 210 m<sup>3</sup>/h to 2x 210 m<sup>3</sup>/h  
26 kPa

58 dbA

410 x 780 x 370 mm  
17 kg

- High efficiency polyester bag.
- 30 l capacity (6 months to 1 year without changing).

Yes

- 3 modes on the central unit and the handle.

Yes

- Comes with 2 in 1 handle.
- With variable power options.
- Storage bag.
- Floor brush and Twinett™ brush.

Yes

Yes

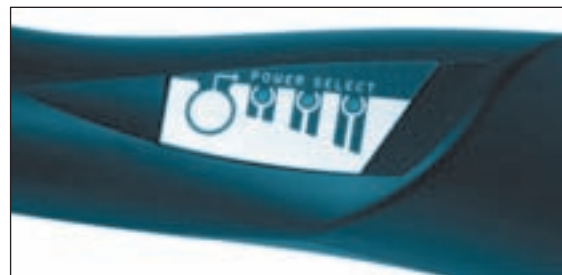

### Dust pan:

Indispensable for the kitchen or the bathroom, the dust pan fits perfectly in the building. With a simple gesture you open it and with a sweep everything has been sucked up.

### Twinett™ brush:

An Aldes exclusive, the Twinett™ brush vacuums and cleans at the same time thanks to a damp floor wipe in the middle of the brush. A significant time saving.

### Power regulator:

The ergonomic handle of the C.Power model includes a suction power regulator so you can optimise the power depending on how much you need.

### Exclusive 2-in-1 handle:

The ergonomically designed 2-in-1 handle divides itself with just a simple gesture and gives you easy access to even the most difficult spots and vacuum cleans in every nook and cranny.
