# Company Profile

Barloworld Vacuum Technology has been manufacturing Industrial and Commercial Vacuum Cleaners and Floor Maintenance equipment for over 100 years. Indeed the 'BVC' brand was founded by the inventor of the vacuum cleaner, H. Cecil Booth, back in 1901. We have many thousands of satisfied customers throughout both the UK and world-wide who have come to know the BVC brand as synonymous with High Performance, Quality and Value for Money

Part of the Barloworld Group of companies with over 22,000 employees world wide in 70 countries on 5 continents we have the resources of a truly global 'Blue Chip' organisation behind us to ensure we are at the leading edge of cleaning machine design

## Service

A national after sales facility is provided by field based service engineers who can provide a fast response breakdown service to ensure your investment is soon back in working order should it ever breakdown

We can also arrange preventative maintenance contracts at agreed intervals to ensure your machines are working at peak performance

Barloworld Vacuum Technology reserves the right to change design without notice

### Note

- 1 Filtration efficiency 99.5% @ 5 micron
- 2 Filtration efficiency 95% @ 5 micron
- 3 Filtration efficiency 99.997% @ 0.6 micron
- 4 Meets BS EN 60335/2/69
- 5 A wide range of interceptors are also available
- 6 1380 Basic, 1565 Clearflow, 1665 Clearflow & Hepa
